**Frequently asked question page providing method for use in bank, involves receiving request from user to access frequently asked questions page, and selecting and displaying set of questions to user based on account data Original**

**Titles:Methods and systems for providing personalized frequently asked questions ...**

**...METHODS AND SYSTEMS FOR PROVIDING PERSONALIZED FREQUENTLY**

**ASKED QUESTIONS Alerting Abstract ...NOVELTY - The method involves**

receiving a request from a user to access a **frequently asked questions (FAQ)** page, and

receiving account data for the user. A set of questions is selected and displayed in a determined order to the **user, based on the account data**. A set of personalized answers is formatted to the questions using the account data. The... DESCRIPTION - An INDEPENDENT CLAIM is also included for a **frequently asked question** page providing system... ..USE - Used for providing a **frequently asked question** page of a bank having question regarding bank loan... ..ADVANTAGE - The set of questions are selected and displayed to the **user based on the account data**, thus displaying personalized **frequently asked questions** for services or products to only those users who qualify for the services or products... ..DESCRIPTION OF DRAWINGS - The drawing shows a flow diagram of a method for providing personalized **frequently asked question** to a user. Original Publication Data by AuthorityArgentinaPublication No. ...Original Abstracts:set of questions to display comprises receiving a request from a user to access a **frequently asked questions (FAQ)** page. Account data for the user is retrieved. A set of questions is selected to display to the **user based on the account data**. ... .. set of questions to display comprises receiving a request from a user to access a **frequently asked questions (FAQ)** page. Account data for the user is retrieved. A set of questions is selected to display to the **user based on the account data**. ... .. afficher, consistant a recevoir une demande d'acces a une page de foire aux questions (FAQ) de la part d'un utilisateur, a extraire les donnees relatives au compte de l'utilisateur. 1. A method comprising:receiving a request from a user to access a **frequently asked questions (FAQ)** page;retrieving account data for the user; andselecting a set of questions to display to the **user based on the account data**.>

**User profile construction method for web content customization, involves updating active profile based on user's response to provided questions and repeating updating process with another set of questions** Alerting Abstract ...The content including an active profile inquiry area with one or more questions, is displayed **based** on an active **profile** for a user. The **answers** to the **questions** allow for better construction of the profile. The active profile for the user is updated in **response** to the user answering the **questions**. The process is repeated with new questions, so that the existing content is refreshed to ... **Class Codes** International Patent Classification IPC Class Level Scope Position Status Version Date **G06F-0017/30... G06F-0017/30...** Original Publication

Data by Authority Argentina **Publication No. ...Original Abstracts:**for subsequent content customization based thereon, interspersed with content display, is disclosed. Content is displayed **based** at least on an active **profile** for a **user**, where the active **profile** may initially be **empty**. The content includes an inquiry area that has one or more questions. The **answers** to these questions allow for better construction of the profile. The user may answer the questions, or **may ignore them** and select other content to display. In the latter case, new content is shown to the user, with preferably the same questions displayed to the user in the inquiry area. In the former case, the active **profile** for the **user** is updated **based on** the answers, and the existing content is preferably refreshed to reflect the updated active profile... **Claims: 1.** A method comprising: displaying content **based** on at least an active **profile** for a **user**, the content **including** an active **profile**-inquiry area having one or **more questions**, the **answers** to which allow for better **construction** of the active profile for the user; in **response** to the user answering the one or **more questions** within the active profile-inquiry area, updating **the** active profile for the user; and, repeating the method with one or more new questions...

### English Abstract:

...set of questions to display comprises receiving a request from a user to access a **frequently asked questions (FAQ)** page. Account data for the user is retrieved. A set of questions is selected to display to the **user based on the account data**.

### Detailed Description:

...end of the page.

#### BRIEF SUMMARY

[00031] Methods and systems are disclosed for providing personalized **frequently asked questions (FAQs)** to a user. In one embodiment, the method comprises receiving a request from a user to access a **FAQ** page. Account data is retrieved for the user. A set of questions is then selected to display to the **user based on the account data**. The method may also include formatting a set of personalized answers to the set of... ..second set of data. The logic receives a request from a user to access a **FAQ** page. The logic retrieves from the second set of data the account data for the... ..selects a group of questions from the first set of data to display to the **user based on the account data** for the **user**. The system may also include a third set of data containing a plurality of answers... ..a JAVA program. Logic 130 may receive a request from a user to access a **FAQ** page. Logic 130 may then select a group of questions from the set of questions 100 to display to the **user based on user account data** for the **user** 120. Alternately, or in addition, logic 130 may be used to format one or more...

### Claims:

II. A method comprising:

receiving a request from a user to access a **frequently asked questions (FAQ)** page; retrieving account data for the user; and selecting a set of questions to display to the **user based on the account data**.

2 The method of claim 1, further comprising formatting a set of personalized answers to... ..set of data, the logic to receive a request from a user to access a **frequently asked questions (FAQ)** page, to retrieve from the second set of data the account data for the user... ..select a group of questions from the first set of data to display to the **user based on the account data** for the user.

25 The system of claim 24, further comprising a third set of data containing a...

Further, the particular content selected may be grouped with other content to provide a package...both internal and external support/helpdesk organizations.

The customer support application features include.

Personalized site **based** on **customer profile**

Ability to search the knowledge base and browse **FAQs**

Support for announcements or "hot topics" personalized to the customer's products and/or interests...profile. General links include.

\* 1-tome,--a.linkto:retumtothesupportsitehomepage

Search KB - to search the knowledge **base** for any type of information

\* **Profile** - to modify the **customer's** existing **profile** data or add and remove products

Support - to view previously submitted issues

## Main Result Frame

A. main.result. frame 1204 may contain the results from knowledge base or **FAQ** searches, chat, online forms, site announcements, and generally the result of any function selected from...

## Claims:

...as set forth in claim 1, wherein the customer support-related content includes answers to **FAQ's**, announcements@ access to a knowledge base, product support, access to a chat room, access... ..specific browsing.

8 A computer program embodied on a computer readable medium for providing a **customer** support interface tailored **according** to a **profile** of the **customer** comprising: (a) a code segment that prompts a user to enter user input relating to ... ..as set forth in claim 8, wherein the customer support-related content includes answers to **FAQ's**, announcements, access to a knowledge base, product support, access to a chat room, access to newsgroups, and content-specific browsing.

15 A system for providing a **customer** support interface tailored **according** to a **profile** of the **customer** comprising:(a) logic that prompts a user to enter user input relating to the user...

**Specification:** ...flavor.

User selects at various times the character of the coffee they prefer via a **consumer** interface window.

The **consumer** establishes a **personal profile** over the Internet or at the system which may entail and answering a few **questions** about beverage preferences. The **responses** to these **questions** are analyzed by the **customization** director to formulate and deliver the product with the right **profile**. The **consumer** is presented the opportunity to customize their own beverage or choose from a variety of pre-configured drinks that approximately match the **consumer's personal profile**.

In one embodiment of the present invention, an administrative user may access the customization director... ..extract can then be held in the refrigerated dispenser for up to 20 days.

C.) **Consumer** establishes a **personal profile** at the system and **answers** a few simple **questions** around preference. These **questions** help **customize** a product with the right profile. The profile is maintained in a central database accessed... ..The coffee extract is used immediately after brewing to develop the desired finished beverage.

C.) **Consumer** establishes a **personal profile** over the Internet or at the system and **answers** a few simple **questions** around preference. These **questions** help **customize** a product with the right profile. The profile is maintained in a central database accessed... ..extract can then be held in the refrigerated dispenser for up to 15 days.

C.) **Consumer** establishes a **personal profile** at the system and **answers** a few simple **questions** around preference. These **questions** help **customize** a product with the right profile. The profile is maintained in a central database accessed... ..two fractions can be blended together at any ratio and also diluted with water.

C.) **Consumer** establishes a **personal profile** over the Internet or at the system and **answers** a few simple **questions** around preference. These **questions** help **customize** a product with the right profile. The profile is maintained in a central database accessed...

### Detailed Description:

...notifies the user whether the patient has prequalified for any clinical trials.

The patient's **profile** is built by asking the **user** a series of questions and then creating the patient **profile** based on the **user's responses**. The **questions** can 5 include static and **dynamic questions**. The user is also asked a series of questions targeted to a specific

clinical trial... cancer at the time of diagnosis?

5 The user can be asked different levels of **dynamic questions**. For example, depending on the user's **answer** to a particular **question**, the user can be asked a follow-up **dynamic question**. If the user **answers** this **question** in a certain way, the user can be asked another follow-up question to the... ..this way the user is automatically steered through the process of building a patient 10 **profile**. As an example, if the **user** selects "Lung Cancer" as a disease, the user could be asked "Are you a smoker..."
